## PROFESSIONAL EXPERIENCE

### ● Salesman

SHIMMY'S LAMPS

Still Currently Involved

Working for Shimmy's Lamps allowed me to work/ communicate with consumers more efficiently. I do believe these learned skills could allow me to better understand what type of software customers and employers would want from me through better communication skills.

### ● Movie store Clerk

DISCOVERY DVD

2015 February - 2017 April

Working as a movie store clerk also allowed me to better understand a customer's wants, and gave me the opportunity to often work with technologies such as: Printers, POS Systems, Simple Finance Systems, etc. It also taught me more about troubleshooting the listed technologies. On top of that, I was also trusted with responsibilities such as cashing out and locking up the store.

## EDUCATION

### ● Matric

LANTERN SCHOOL

2008 - 2018

### ● HyperionDev

JOHANNESBURG

2021

## CERTIFICATIONS

-  Matric
-  Software Engineering Bootcamp

## SALARY EXPECTATIONS

-  To be discussed
